ALLEY RIDER RUBBER SPEED BUMP

PRODUCT INFORMATION BROCHURE

PICTURED: SPEED BUMP

Checkers™ is a full-service manufacturer of parking lot safety solutions. We design and manufacture traffic control products that help cars navigate and park safely. Our main goal has been to create solutions that protect motorists and pedestrians from the perils of today's parking lots. As such, Checkers™ products have been designed and developed with speed reduction, driver and pedestrian safety in mind. All our solutions are manufactured from 100% recycled rubber and plastic. Our speed bumps or parking blocks, for example, are longer lasting, highly visible, and more car-friendly than asphalt or concrete alternatives. Not only are Checkers™ traffic safety solutions environmentally friendly, they can also be installed for either temporary or permanent use.

- **Rubber speed bumps greatly outlast concrete or asphalt competitors**
- **Rubber speed bumps don't degrade like concrete speed bumps, keeping parking lots aesthetically pleasing**
- **High-quality rubber is resistant to ultraviolet light, moisture, oil, and extreme temperatures**
- **Recycled rubber construction is environmentally friendly**
- **Pliable rubber protects vehicles as well as curbs**
- **Highly-reflective colored tape ensures the speed bump will be visible**
- **Channeled bottom for cabling and piping**
- **Easy-to-install, either on asphalt or concrete surfaces**
- **Can be used for temporary or permanent applications**
- **Great for commercial and residential applications**
- **End caps available and sold separately**

PRODUCT INFORMATION

Alley Rider was developed specifically to address speeding and cut-through traffic in city alleyways, slowing cars to 1-5 mph approx. Constructed from 100% recycled tires, the flexible design conforms to the contour of virtually any road surface. Pre-drilled holes for simple install. Designed to withstand extreme weather and stress, and resistant to moisture, oil, temperature variations, and ultraviolet light. The Alley Bump will not warp, crack, chip, or rot.

Material: Premium recycled rubber

- Long lasting and cost efficient
- Reduces speed to 1-5 mph
- High visibility at night
- Simple installation
- Product can be installed in sections to create varying lengths
- Will not warp, crack, chip or rot
- Can be installed on any road surface
- Temporary or permanent installation
- Lowers insurance premiums for lot owners
- Maintenance free
- Warranty: 3 years on the product; 1 year on the tape (under normal use)

⚠️ WARNING: This product can expose you to chemicals including Arsenic, Cobalt, Cadmium, Lead, Chromium, Nickel Compounds, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.
